**Subject:** Request for support the charity concert “The hands of Love”

**Attention:**

Kawila Anukul School Parents and Teachers’ Club, Chiang Mai City and the Special Activity Department of Vimandara Resort have received approval from the Committee of the Department of General Education from Kawila Anukul School to coordinate a charity concert scheduled for 6 April, 2008. We expect this to be one of the most significant cultural events of the year in Chiang Mai

**Name:** Live Concert “The hands of Love” By Chiang Mai Symphony Orchestra

**Date:** Sunday, 6 April, 2008, at 5:00 pm.-9:30 pm.

**Place:** Chiang Mai University Convention Hall

**No. of Ticket:** 3,200 Tickets

**Ticket:** Premium Seat **1,500** Baht, Preferred Seat **1,000** Baht

General Seat **700** Baht and Student Seat **300** Baht

This event will include booth activities by sponsors, a show by students with intellectual disabilities, autism and sub- disabilities, together with the main program which will be the Chiang Mai Symphony Orchestra composed of 100 musicians and artists from 5 institutions in Chiang Mai appearing together in concert for the very first time.

The income from this concert will give the Kawila Anukul School Parents and Teachers Club a budget for musical instruments and materials for our students to participate in the project from Princess Sirindhorn for educational and occupational development of our children with disabilities.

We need help from your company and ask that your company sponsor this concert. For further information please contact staff at Kawila Anukul Parents and Teachers Club and Special Activity Department of Vimandara Lake Resort & Spa via phone number: 0-5324-4770

The children , Parents and Teachers’ Club, and Kawila Anukul School thank you very much for assisting us in this most important event.

Your faithfully,

(Mr.Daniel Foxman)

Vice-President of

Kawila Anukul School parents and teachers’ club

## **Live Concert “The hands of Love” by Chiang Mai Symphony Orchestra**

### **Reasonable**

Thailand is focused on the development of its human resources through better education and higher technology. This will have a strong positive effect on our economy, politics, and the society as a whole. People with intellectual disabilities are part of our human resources and they can support themselves and make valuable contributions as well. Kawila Anukul School is dedicated to providing the support, education, training, and development needed by these individuals to live productive, meaningful, and fulfilling lives. The Department of General Education and Ministry of Education of the Thai government have joined with private organizations and the parents of children with intellectual disabilities to provide an education in accordance with the Parliamentary Act Buddhist era 2542 section 10: “ The management of education for mentally retarded persons or persons with disabilities will be provided with special education.” Kawila Anukul School, under jurisdiction of Special Education Division of the Department of General Education, Ministry of Education is a school for children with mental retardation, autism and sub disabilities. These children are provided special education from kindergarten to secondary levels. They are taught daily life skills and educated to the best of their abilities. Parents and others are also informed so they can better understand and be responsible to those with mental and learning disabilities. Kawila Anukul School understands the limited abilities and differentiates between each student. They follow the basic educational program prescribed by the Ministry of Education and add daily life skills, physiological therapy, musical therapy, artistic therapy according to the Individualized Education Program (IEP) developed for each student. The students fall into three major categories:

Group I: Educable Mentally Retarded ( IQ between 50 – 70)

Group II : Trainable Mentally Retarded ( IQ below 50)

Group III: Autistic – Kawila Anukul School utilizes the most advanced teaching methods such as Picture Exchange Communication System ( PECS), Augmentative and Alternative Communication (AAC), Structure Teaching and Visual Strategies.

Page 4

When many of our students ( Group II and III) graduate, they can not continue to work alone and have no institution to help them. To address this serious problem, Kawila Anukul School Parents and Teachers Club has created a project to provide occupational training for graduates to develop and use their skills to create value and provide an income. This is essential to give these young people with a sense of personal worth and pride in themselves as productive citizens. We need to create funds for a new building to house this program as well as a budget for tools and materials.

For this reason, Kawila Anukul School Parents and Teachers Club in coordination with the Special Activity Department of Vimandara Resort and Kawila Anukul School present a live concert by the Chiang Mai Symphony Orchestra, “The Hands of Love” All funds generated by this concert will be used to provide for this project whose

## **objectives are to:**

1. Provide funds to support the practice of occupational activities for students and graduates.
2. Encourage social responsibility to support the students.
3. Inform the public to understand and appreciate the development of the students’ skills

## **Targets:**

1. We hope to create a program to support at least 1000 deserving and worthy people.
2. Students with intellectual disabilities, autism and sub disabilities can be helped to support themselves by practicing the occupational activities they have learned at school.

Parents, government, and the public can understand the abilities of these students.

(Mr.Waiyawat Na Chiangmai)

President of

Kawila Anukul School parents and teachers' club.

(Ms.Kanchanee Chantrarat)

Director of

Kawila Anukul School

(Ms.Pijit Jarunate)

President of

committee of the Department of General

Education from Kawila Anukul School

Kawila Anukul School under the jurisdiction of the special education division of the department of general education, Ministry of Education is a school for mentally retarded children ,Autistic and sub disability. The school children are boys and girls with learning disabilities Education is provided from kindergarten to secondary levels. In 2007 there are about 404 students.

The purpose of education are acceleration and training in the children with mentally retarded in daily-life skills ,increasing the educational opportunity for the children with mentally retarded and to encourage, distribute and inform parents and others to understand and be responsible to the mentally retarded.

Our school knew the limited of ability and differentiation between each person therefore we teach follow the basic of educational program which adapt the standard in each group. There are 8 groups from basic educational program Buddhist era 2544 Ministry of Education and add in the daily-life skills activities, physiological therapy activities, musical therapy, artistic therapy and use the Individualized Education Program : IEP as an instrument for management the learning to fulfill the development of student by classify student to be 3 groups as

Group 1 Educable Mentally Retarded (level of IQ. “Between 50-70” )

Group 2 Trainable Mentally Retarded (level of IQ. “Below 50” )

Group 3 Autistic.

Because of our students are intellectual disabilities and very low development so when they are graduated the numbers of students who can work outside with social are small group. It means that their daily-life with social and acceptable of their abilities from social is still very little. Therefore Kawila Anukul School parents and teachers' club would like to develop their daily-life activities, their work with handmade product and we would like to encourage their occupational skills including income to them. These activities could make them proud themselves, realize their valuable and happy life in social. So Kawila Anukul School parents and teachers' club have the project called "Practicing the occupation for students to develop their skills until they can get income" this project will be advantage for their future after they graduated from Kawila Anukul School.
